ROVERS HAVE TO CATCH UP ON SWINDON

BY MAURICE GOLESWORTHY

Having parted company with the City this evening's game is THE local derby of the season and we extend a special welcome to our friends and neighbours from Swindon.

This will be our 55th Football League meeting with the Wiltshire club and as things stand at the moment the Rovers have a little catching up to do, for the present tally reads Rovers 21 wins, Town 24 wins, and nine games drawn. Despite that tally, however, the Rovers are slightly ahead as far as goals are concerned for we have netted 75 to Swindon's 73.

While Rovers have succeeded in winning only four of our 27 League games at Swindon, the Town have won seven times on this ground, but only one of their victories has been gained in a post-war match.

Oddly enough this solitary post-war Swindon win at Eastville was in Rovers' promotion season, at a time when we were seven points clear of everyone at the head of the table and Swindon were one place off the bottom and struggling to avoid having to apply for re-election.

Bristol City were runners-up to Rovers at that late stage of season 1952–53 (it was at the beginning of April) but a week before their visit to Eastville, Swindon had held City to a goalless draw at the County Ground.

However, when Rovers went to Swindon on the following Friday (Good Friday) we won 3—1 and it seemed like an easy "double" for us in the return game on Easter Monday. It was certainly one of the shocks of the day when the Railwaymen grabbed both points with a 2—1 victory.

Incidentally, that was the only time since the war that Swindon have succeeded in netting more than one goal at Eastville, for so well have Rovers sustained their ground advantage that the Town have failed to score at all in five of their eight post-war League visits.

Swindon, of course, are now in the process of reshaping their team and getting it back on the winning trail after being so hard hit in the Second Division last season. Indeed, so involved are they in transfer talks at the present time that even though I have left it until the last moment to write these notes we still cannot be sure whether we shall see goalscoring inside-forward, Ernie Hunt, or whether they will include any more new signings.

Manager Danny Williams has already spent quite a slice of the £30,000 or more that the Town are presumed to have received for Mike Summerbee (I wonder

what Bristol City thought about that fee for a player who was once on their ground-staff!) by signing Pete Downsborough from Halifax Town, Ken Keyworth from Coventry City, and Mel Nurse from Middlesbrough. No doubt Swindon will not stop there, especially when they collect another fat fee for Ernie Hunt's transfer—a deal that may be completed with either Villa or Wolves by the time this appears in print.

Until taking over at Swindon, Manager Danny Williams was a one club man for he had served Rotherham (his home town) for 23 years as player, coach, and finally as manager. Obviously, he must be a man who likes a challenge for he knew that he had a real job on his hands when he accepted the managership of Swindon only a month or so after they had suffered relegation.

Mr. Williams signed a 'townie' and former team mate when he paid Coventry City £5,000 for Ken Keyworth. Indeed, Ken was given his first-ever League appearance because of an injury to Danny Williams then playing left-half. Ken has since switched to the attack and made two Cup Final appearances during the time he was with Leicester City.

Swindon swopped Bill Atkins and a £3,000 cheque for goalkeeper Pete Downsborough from Halifax, and centre-half, Mel Nurse, is reported to have cost them £15,000 from Middlesbrough. Mel has a dozen Welsh International appearances to his credit.

But turning to League appearances Swindon's John Trollope is the player with the most remarkable record. Assuming he escaped injury on Saturday this could be his 226th CONSECUTIVE League game. He has never been dropped since making his debut in August 1960.

THE BRISTOL ROVERS POLICY

The Club Policy was printed in full in the first two issues of this season's Programme. As announced, we shall be using subsequent programmes to amplify each section of the policy and to explain how it is or should be put into practice.

SECTION 1.

No doubt the term "No buy, no sell" is the tag most frequently applied to Bristol Rovers. That does not, however, sum up fully the policy of the Club. We are concerned with promoting football. We are making haste slowly. There is unbounded enthusiasm amongst the Directors. The results of that enthusiasm have already been made clear. We are not out to win at any price. We do believe that successful football must be a matter of team work. Team work amongst our players, team work amongst our Directors and Officials, team work amongst our supporters and even team work amongst the public who pay to see our matches.

FLEXIBILITY AND RIGIDITY

Although the Policy is flexible we stick to it as rigidly as we can—if only to make everyone connected with the Club Policy-minded—encouraging them to understand that good scouting and recruitment of young players, followed by good training and coaching coupled with fostering and nurturing, will lead to success. This is making haste slowly.

DEVIATION

When the maximum wage clause was removed from players' contracts four years ago, creating difficult problems in wage negotiations with some players, we deviated from certain aspects of the policy for a period of two years, to meet the special needs of the time. But in broad principle we have stuck as closely as possible to the policy since 1950.

When needs arise, mature and experienced players are also recruited—but we do our best to discourage this method, believing that home grown products

are as good as, if not better, than imports.

At the same time we recognise and pay tribute to the great service we have

received from players who have come to Eastville from all over the U.K. Indeed it is gratifying that so many of them have settled in Bristol at the end of their playing days.

DIRECTORS

The Directors do not seek personal publicity, and it is not easy for the public to perceive the enthusiasm of Directors. This reveals itself in the Board Room, by their never failing encouragement of players and staff, and by the many years of service contributed by most of them—regardless of the thankless nature of their office.

THE WAY TO WIN

We are not out to win at any price—those who are, usually are desperate. Doubtful methods and dubious practices are discouraged. We believe that having set a course it should be pursued, and that if all concerned have faith in the common purpose we shall succeed.

TEAMWORK

The need for teamwork is obvious, particularly amongst our players, directors and officials—and we are working towards this all the time.

Much has been done to encourage teamwork amongst our supporters, at Club level and particularly through the medium of the late supporters club. It is unfortunate that it became necessary to dispense with this medium.

The way ahead is in the Family Tree of Support. Teamwork amongst our supporters with our Directors and officials through the various branches of the Family Tree will lead to a greater understanding and ultimate success.

Those really concerned with the success of Bristol Rovers have a positive part to play, and the pattern needs to be understood, and if we are to succeed, accepted. Under the umbrella of the Football Club:—

The Player's duty is to play, and dedicate himself.
The Director's duty is to Direct, without interference.

The Management's duty is to Manage. The Fund-raiser's duty is to raise funds.

The Supporter's duty is to support.

It is only by everyone appreciating and accepting this formula that we can progress. In this day and age Football Clubs cannot afford Supporting Organisations unless they are completely behind the Board, Management and Players. Any other approach is futile and will be doomed to failure—as was proved in the case of our late supporters club.

THE PUBLIC WHO PAY

Tremendous strides have been made in improving every aspect of the Club since the war. Facilities and amenities for the public who pay to see our matches have developed out of all knowledge since the pre-war era. Progress continues, and it is our hope that as we progress we shall create a climate in which the public who pay to see our matches will become supporters and will want to be identified with Bristol Rovers in the way that our closest supporters are identified.
